Course Description

This course is dedicated to introducing students to the fundamentals of American government and politics. There are three parts to this course. The first examines the ideological, contextual, and developmental aspects of American politics and government. The second part builds upon this understanding and outlines the exact political processes that help create and participate in American politics. The third part focuses on how policies are introduced, debated, decided, and implemented by the legislative, judicial, and executive branches. Students will be exposed to a variety of material that will showcase, explain, explore, and endeavor to understand American Government and American political behavior.

LSU Integrative Learning Core

LSU Integrative Learning Core Integrated learning allows students to make simple connections among ideas and experiences and across disciplines and perspectives. The LSU Integrative Learning Core (ILC) curriculum is designed to develop student abilities to transfer their learning to new situations and demonstrate a sense of self as a learner. A fundamental goal of the ILC is to foster students’ practical and intellectual capacities associated with integrative learning in preparation for high competence and functionality in their post-baccalaureate careers. This course fulfills the BOR Area of Social/Behavioral Sciences and provides students experience with the ILC proficiency of Inquiry and Analysis.

Academic Honesty

Be very careful with the writing

assignments. Use of another person's words without proper citation or copying from another person's work is considered plagiarism. I reserve the right to investigate when I suspect a violation of any of these policies. All violations of the university's academic conduct policies are turned over to the Dean of Students.
