

Acadian Hall Video Tour

Hey guys welcome to Acadian Hall. My name is Courtney, and I am going to be your tour guide today, so let's get started. Acadian is a traditional hall here on campus. Right now, we are standing in our 24-hour lobby area. People come down here, you know, study at the tables, go to the couches, hang out with their friends, or use the grand piano. We also have a 24-hour front desk. If you have any key issues, maintenance issues, you can always go talk to someone. Over here we have our courtyard, people come out here to study and enjoy the sun.

Just like in all of the halls, Acadian has a 24-hour computer lab. It's a great place to come here and study use the computer for free, you can also print for free you just have to bring your own printer paper. Right next door, we have our study room. People again they go in there and study, it is very quiet, it is a really great place to concentrate.

All right guys, welcome to the room. Acadian has two different styles of rooms. We have Old Acadian, which is the original part of the building. Where we are now is New Acadian, which was added on later.

Each resident gets a bunkable bed, a desk and a desk chair, and also a book shelf. You also get a lot of natural light in the room because of the window. Another feature residents love in Acadian is our walk in closets. It gives a lot of storage space, a place to hang your clothes, shoes, shoes racks and what not. These are also our biggest closets on campus.

Acadian has a hall style bath that gets cleaned twice a day by our great custodial staff. And you also get a vanity in the room with a sink where you can wash your face, brush your teeth, and there's great storage space.

You are welcome to make your room feel like home, you can bring anything to put on the walls, we just ask that you don't puncture any holes or damage the paint. You can also bring any microwave, refrigerator or coffee pot.

In the basement of Acadian, we have a laundry room. Laundry is a \$1.25 to wash and a \$1.25 to dry. You can use TigerCash or coins. It is also hooked up to a website called laundryalert.com. You can find out which machines are available for you to use online, and you can hook it up to text or email you when your laundry is done. Acadian also has vending, ice machines, and a pool table in the basement. We also have a kitchenette that has a stove and an oven. Not a lot of cooking goes on down there because all of our freshmen living on campus all are required to have a meal plan. For more information, you can go online and check out our Living On Campus Handbook on our website.

Well guys I hope you enjoyed the tour. I can't wait to see you guys on campus and Geaux Tigers!
